---

## OBJECTIVE

---

Software Engineer Self-motivated , driven and a creative individual with good communication skills and adept at handling all types of personalities in a cooperative way . Passionate about various technologies and proficient in OOP concepts along with considerable experience in creating user interfaces using various technologies.

---

## EDUCATION

---

<i>Higher Education</i>	<i>May-2021</i>
<i>A B Higher Secondary School , Navsari</i>	Gujarat , India
<ul style="list-style-type: none"><li><i>Percentile Rank - 87.00</i></li></ul>	
<i>Bachelor of Technology in Information Technology</i>	<i>May-2025</i>
<i>C.S. Patel , Institute of technology , Anand</i>	Gujarat , India
<ul style="list-style-type: none"><li><i>Cgpa : 7.92 / 10</i></li></ul>	

---

## TECHNICAL SKILLS

---

- |                                       |  |
|---------------------------------------|--|
| • <b>Languages :</b>                  | C/C++, JavaScript, PHP                     |
| • <b>Frameworks &amp; Libraries :</b> | Mern Stack                                 |
| • <b>Databases :</b>                  | MongoDB , MySQL ,Oracle                    |
| • <b>Tools :</b>                      | Data Structure & Algorithms , Git , Github |

---

## SOFT SKILLS

---

- TeamWork & Cooperation
- Problem Solving
- Creativity
- Task Planning and Execution

---

## EXPERIENCE

---

<b>Software Developer</b>	<b>05/2023 - 06/2023</b>
<i>ProjectTree</i>	
<ul style="list-style-type: none"><li>• Worked on various live projects &amp; learn about new sets of technology.</li><li>• Build different modules of long-term project that used by customers in future.</li></ul>	

---

## PROJECTS

---

### Food Management System

- It is a web application developed using **Mern Stack**.
- It allows customers to browse menus , receive & process orders and communicate with customers..
- To ensure the website complies with all relevant legal & regulatory requirements.

### Online Voting System

- The Online Voting System project aims to revolutionize the voting process by providing a modern, accessible, and secure platform for eligible voters.
- While the proposed system will encompass essential features and rigorous security measures, it is crucial to acknowledge the inherent limitations and challenges associated with online voting.

### PyProject

- It is a web application developed using **php & web- scraping**.
- The application is aimed at helping students by providing different python projects with materials.
- Users can go through different python projects with stepwise instructions and video references.

---

## CERTIFICATES

---

- Data Base Management System-NPTEL
- Project Management Foundations
  - It is a course authorized by Project Management Institute and offered through Linkedin which includes the fundamentals of project management, from establishing project goals and objectives and building a project plan to managing resources and work, meeting deadlines, and closing the project.
- Shaastra X Codechef Programming Tournament
  - It is a coding contest of the IIT- Madras.
- Introduction to Soft skills
  - I learnt about basic soft skills such as how to communicate with peer employees , how to do team work etc. It was arranged by TCS
- Codepie 2.0
  - It is a competitive programming contest which was organized by faculty of technology.
- Introduction to TCP/IP
  - It is a course authorized by Yonsei University and offered through Coursera which includes basics of communication protocols of computer network.
